

Special Board Meeting Notes December 13, 2010

All Board members were present, with the exception of Gail Scholl.

The purpose of the meeting was to discuss snow removal from City of Delano Streets. Doug Ludwig received a call from the City of Delano asking when we were going to remove snow from the city streets as there were concerns regarding access for emergency vehicles. There is a city ordinance prohibiting depositing of snow on city streets.

The board authorized our contractor to begin the snow removal process as soon as possible. The board has obtained permission from Litfin & Son's to deposit the snow in the old gravel pit area across the road from the City Sewage treatment plant.

The Board noted the additional costs for this service is NOT planned for in our annual budget and may result in additional assessments for each homeowner.
